Summary

A highly motivated and detail-oriented QA engineer with a strong foundation in Java and software testing. Using technical skills and experience from internships and training in full-stack development and quality assurance to deliver reliable software solutions.

Experience

Software QA Engineer, GIR Software Services - USA

Jan 2024 – Present

- Executed various QA tasks to ensure the reliability and performance of software products.
- Tested functionality and user interfaces across 5+ platforms and environments.
- Collaborated with development teams to define testing strategies and resolved 90% reported software defects.
- Tracked and managed 100+ bugs using JIRA.
- Created 500+ test cases from functional descriptions.
- Executed 95% of test cases within the project deadlines.

Technologies

Programming Languages: Java, C, C++, SQL

Databases: MySQL, PostgreSQL

Tools & Technologies: JIRA, BrowserStack, Postman

Testing: Manual Testing, API Testing

Web Technologies: HTML, CSS

Education

Bachelor of Technology in Computer Science Engineering, Rayat Bahra University

Oct 2020 – Jun 2024

- CGPA: 8.88

INTERNSHIPS & TRAINING

Graduate Technical Intern

- Completed a five-month internship at GIR Software Services in QA/QC

Full Stack Training

- Completed a 60-day full-stack development training covering front- and back-end technologies.

Training on Core Java & MySQL

- Completed a 45-day training focused on Core Java programming and MySQL database management

ACHIEVEMENTS

- 1st Prize in Technical Event at TECHNOVERSA 2022
- 2nd Prize in Coding Competition, sponsored by Coding Blocks.
- 3rd Prize in Debugging Competition at University Level.
- Coordinated the SUMMER CODE QUEST Technical Event at the University.
